

LADIES AUTO CLINIC

Statistics have shown that whether driving your own vehicle or traveling in one as a passenger, basic skills in motor vehicle can save a day and sometimes a life in addition to the huge savings in vehicle costs.

Though the number of lady motorists is increasing, favorable opportunities for the ladies to equip themselves with such skills are limited. To bridge this gap, the AA of Kenya has organized a ladies' auto care workshop. Understanding the workings of a vehicle will enable you to keep off the "**Road-side**" **mechanics** who often fiddle with the machine when a car breaks down in the middle of the road or even at night, exposing one to great risks and costs.

Date : 11th September 2010

Venue : Total Mombasa Road

Time : 9.00am to 4.00pm

Fees payable : Free

Who Should attend : All ladies

Contents : Practical demonstration of vehicle systems and workings
