

## ⚽ SOUTH AFRICA 2010: WILL YOU BE THERE ? ⚽

Football is one of the sports with a great following – sometimes like a religion other times fanatical. In **2010** all roads lead to **South Africa** for the **World Cup**. You can be part of this and make history – it is the first time the event is being held in Africa.

To get there you obviously need your passport and guess what, you can take a road trip to South Africa with your **PERSONAL CAR**. A road trip will give you a chance to enjoy the scenery, culture and diversity of the countries you will pass through.

The A A of Kenya will provide you with a **carnet**, sometimes referred to as a **car passport**. This allows passage through numerous borders, eliminating the hassle of having to lodge the original logbook or cash deposits to cover import duty with the customs officials at each port of entry. Carnets are highly recommended for the temporary importation of motor vehicles since they guarantee payment of customs duty.

With a current valuation report from AA technical department, a banker's guarantee or cash deposit and a nominal administration fee, this document is prepared within 2 days.

**International Driving Permits** are issued by **the A A of Kenya only**. This document allows a motorist who is a holder of a valid Kenya Driving licence to drive in foreign countries within the confines of the traffic laws existing in those countries. It is important while traveling across borders.

We will also arrange for a **COMESA Insurance cover** and any other travel insurance you require through our AA Insurance Brokers Ltd. And whats more, we will tell you where to fuel, **dine, relax, sleep over** etc along the way. And true to our motto, "**with you all the way!**" we will be with you till Namanga then hand you over to our sister organizations in Tanzania, Zambia, Zimbabwe and South Africa. You will never feel alone.

Enjoy the game, and may the best team win!
